

## WHEREVER THERE'S CHEMISTRY, THERE'S CHEMDRAW

*Accelerate your research with these powerful new features and upgrades – only available in ChemDraw 16*

### ChemDraw Cloud

ChemDraw Cloud, one of the most exciting additions to the ChemDraw® suite, will transform the way you visualize your research and create publication-ready, scientifically intelligent drawings. Accessible through any web browser, you can easily import or export your ChemDraw files, enjoy your favorite drawing features, and even share your designs with colleagues in a single click!

Available for ChemDraw Professional and ChemOffice® Professional.

- No software installation required on the user's workstation
- All editing/viewing/managing of ChemDraw documents is done in a web browser (including tablet and mobile devices)
- Users can access ChemDraw documents from any computer with an Internet connection
- All documents are stored, encrypted, and backed-up on ChemDraw Cloud servers
- Documents can be exported or printed with publication-quality output
- Documents stored in ChemDraw Cloud can be directly accessed/used from ChemDraw desktop ChemDraw E-Notebook
- Documents stored in ChemDraw Cloud can be shared with other platform users without distributing/emailing copies

### Seamless Integration with ChemDraw E-Notebook

Available for ChemOffice Professional.

- Enjoy free accounts to ChemDraw E-Notebook, our powerful new web based Electronic Lab Notebook. You can enjoy seamless workflows between both tools including browsing and working with any ChemDraw file in either your ChemDraw E-Notebook or ChemDraw itself.

### Enhanced Retrosynthesis Tool

Available for ChemDraw Professional and ChemOffice Professional.

- Perform enhanced retrosynthesis analyses on molecules to identify the reactions that are required to create a bond or set of bonds emanating from a single atom.

### Expanded Mac Platform Support and Application Capabilities

ChemDraw 16 for Mac is 6x faster than previous versions and includes features such as: auto-save and versioning, an improved UI, Unicode support, Improved text rendering including for subscript characters and atom labels. What's more, ChemDraw 16 for Mac offers improved multi-monitor and Retina (high DPI) display support.

### Expanding Windows Platform support

ChemDraw 16 now supports Microsoft® Office 2016 support on Windows including Windows 10.

### Expanded Application Capabilities

ChemDraw 16 now supports MOPAC 2016 plus enhanced Stereochemistry and Stereochemical flags support.
