

Mnova System Requirements

For latest Mnova version:

Windows

The minimum system requirements for a Mnova installation are the one needed to run Windows 10. (Windows XP is not supported anymore since Mnova 10.0.2).

Mac OS X

Mnova requires Mac OS X 10.13 or higher.

Linux

The minimum supported operating system is CentOS/RHEL 8.

Make sure you choose the correct setup file for your Operating System (Debian, OpenSUSE, Fedora, Ubuntu and Red Hat 8 Enterprise Linux).

Mnova License Server

The Mnova License Server does not require higher specifications than any regular Mnova installation.

Mnova DB Server

A working Java runtime environment. Minimum version for all OS 1.8.
